Quality Policy Statement

The quality and reliability of Envirogen Industrial Services' services are seen as paramount to the success and growth of our business.

The Management of Envirogen Industrial Services is committed to demonstrate leadership and commitment with respect to the quality management system and takes accountability for the effectiveness of system.

Meanwhile, quality must continue to be the concern of every person at Envirogen Industrial Services, not just the sole responsibility of Management. Every person at Envirogen Industrial Services has quality related responsibilities, and it must be accepted and understood that every aspect of what we do in the business ultimately affects the level of client satisfaction.

Envirogen Industrial Services is committed to establish quality objectives at relevant functions, levels and processes needed for the quality management system. All quality objectives shall be appropriate, measurable and will be continuously reviewed and updated to ensure product conformity and enhance customer satisfaction.

The quality aspect of our Integrated Business Management System is designed to ensure that we consistently provide products and services that meet customer and applicable statutory and regulatory requirements, while also aims to enhance customer satisfaction through the effective application of the system.

The Integrated Business Management System that Envirogen Industrial Services has established is based on compliance with the standard ISO9001:2016. The methods employed are to be kept under continual review and improved whenever and wherever possible.

These principles are basic to Envirogen Industrial Services and all employees are expected to embrace and support them as a team and to actively pursue the requirements of the Integrated Business Management System so that we can meet the expectations of our clients.
