

Environmental / Sustainability Policy Statement

Envirogen Industrial Services is committed to achieving a high level of environmental care while undertaking its business and aims for continuous improvement of issues relating to environmental management.

We are committed to demonstrate leadership and commitment with respect to the environmental management system and takes accountability for the effectiveness of system.

Envirogen Industrial Services is committed to establish environmental objectives at relevant functions, levels and processes needed for the environmental management system. All environmental objectives shall be appropriate, measurable and will be continuously reviewed and updated to ensure environmental compliances.

The environmental aspect of our Business Management System is designed to ensure that we will commit to:

- the protection of the environment, including prevention of pollutions and other specific environmental aspects relevant to the Company; and
- fulfil all applicable statutory and regulatory requirements.

The Integrated Business Management System that Envirogen Industrial Services has established is based on compliance with the standard ISO14001:2016. The methods employed are to be kept under continual review and improved whenever and wherever possible.

These principles are basic to Envirogen Industrial Services and all employees are expected to embrace and support them as a team and to actively pursue the requirements of the Integrated Business Management System so that we can meet our environmental obligations.

Our business faces many challenges and opportunities. Due to their direct impact on us and our stakeholders we have prioritized the following issues that need to be addressed: Climate change, water conservation, accessibility, health and safety, financial solvency.

- We believe in using the Earth's resources wisely as we create compelling event experiences.
- We also believe we have the power to make a positive human impact on the diverse people we touch.
- Our attention to environmental, social and economic responsibility includes working within the law and voluntarily exceeding legal requirements in order to be innovative and demonstrate leadership on the issues that are important to us and our stakeholders. As we design experiences, execute events and evaluate our success we are able to choose every day in big and small ways how our actions and words build a better quality of life for our employees, clients, event participants and suppliers.
